CONSTANTINOPLE, Thursday, Nov. 29.—The opinion is expressed in diplomatic circles that the American claims arising from the Armenian massacres "may now be regarded as practically settled, as an irade providing for the building of a cruiser in the United States is officially promulgated."

The question of the consulate at Harpoot remains open, the porte persisting in its refusal to grant an exequatur to Dr. Thomas H. Norton. The moral effect, nowever, created by the presence of the United States battleship Kentucky at Smyrna in support of the representations of the American legation, taken in conjunction with the settlement of the other claims, leads the legation to nope for an early arrangement of all outstanding differ-

LONDON, Dec. 1 .- A Reuter dispatch from Constantinople says it is suggested that Russia is prompting the porte to refuse to grant an exequatur to Dr. Norton. The dispatch adds: "It is an open secret that they dislike the Kelth 9,866 Keya Paha 1,951 Kimball 3,076 Knox foreign consuls in Asia Minor, especially the Americans, whom they suspect of aiding the American mission work in Armenia."

WASHINGTON, Dec. 1.-No proposition has come to the United States government from Turkey looking to the payment of the missionary claims under the guise of an order for a war ship to be built in the United States. While it is hardly expected that any forthcoming, it is, of course, beyond the power of the state department to prevent or interfere with any arrangement with American shipbuilders and individual claimants. The point is, after all, to have the claims paid and the state department officials are not particular as to the form in which the payments are paid. Perhaps they are indifferent in this respect because of knowledge of the fact that the Turkish government might be terribly embarrassed by the pressure of European creditors were the United States government to instst upon certain forms of procedure in this case.

There are no developments in the negotiations respecting the exequatur of Dr. Norton, who would be United States consul at Harpoot. The matter is still one of correspondence and the authorities here are confident that the Turkish government will, in the end. yield on this point.

cut about the head and face. The crowd was gathered upon the roof of a building directly over the furnaces of the glass works. When the roof collapsed evry occupant was precipitated upon the heated top and nearly all of them seriously. Seven of the dead are boys ranging in age from ten to afteen years. They were found lying in a row and most of them were badly mangled.

There were at least 200 people on the roof when it collapsed, and of these at least sixty went down. Those who were fortunate enough to be on a solid section of the building scurried down and helped remove the injured. The heat around the furnaces was so great, however, that to many no assistance could be rendered and they slowly roasted to death. Not 200 yards away were 20,000 people watching the foot ball game and when the news became known there was intense excitement among them. The ushers went through the crowd calling for doctors and many surgeons hurriedly left the game. The hving victims from the disaster were taken to various hospitals. The Southern Pacific hospital, within two blocks of the glass works, was soon overcrowded and many piled by the State Bureau of Statistics

wounded had to be turned away. They were hurried to St. Luke's, the city receiving hospital and nearby drugstores. So scattered are they among the various institutions that it is impossible to tell exactly how many were hurt or how seriously they were

injured. The coroner did not have enough wagons to remove the dead and they were taken away in express wagons. Many elegant private carriages were waiting outside the foot ball grounds and they were pressed into service to take away the wounded. A high fence surrounds the glass works grounds and thousands of people attempted to get inside. They were restrained with difficulty by a large force of police.

TURKEY WILLING TO SETTLE.

in the United States. CONSTANTINOPLE, Nov. 30 .- The arrival of the United States battleship Kentucky at Smyrna has so shaken up the palace that indications are accumulating of a desire to hasten a settlement to the satisfaction of the United States. An irade has been issued calling for the purchase of a cruiser at Philadelphia, the price for which is to include the \$90,000 Armenian indemnity. This is regarded as a subterfuge designed for local consumption, in order to save the face of the Porte. Nevertheless it is now believed that Turkey will find the money and order a cruiser in the hope of propitiating the United States, Despite the dispute the relations between the Unitd Saes legation and the Porte continue cordial.

WASHINGTON, Nov. 29.-The state epartment cabled Minister Conger to forward the text of the agreement reached by the toreign ministers at an opportunity to satisfy himself as to this important document and to make such changes as will bring it in accord with our policy. It is safe to predict that this particular agreement will not become effective in its present shape. It appears that upon inquiry directed to the powers themselves their ham, president of the Royal Geographministers at Pekin have not correctly reflected their present views as to the basis of the peace negotiations. This statement certainly is true as to a ma- nier's plans contemplate an expedition jority of the powers interested, and the from Vancouver, with a wooden or fact is regarded as warranting the prediction that the agreement must be modified or abandoned.

The expedition American consuls in China are achieving gool results by individual efforts. They are interesting themselves in cases appealing directly to the viceroys of the great provinces, where American property and missionaries have suffered, to procure indemnity and reparation, and in most cases they are succeeding very well. It is surmised from the latest Chinese advices that the English consuls are doing likewise, and are collecting many claims, and the moneys are being turned over to the mission interests which suffered. If this movement continues it is entirely possible that neither the United States nor Great Britain will be obliged to tion of individual claims for indemnity through the slow moving agencies at
